rollin' dubstep

as so many of the dubstep-lovers out there, **guyus** (elephant prod.) started with spinning drum'n'bass a couple of years ago. he's telling us in the show, how dubstep entered his life and what it wreaked - fact is, that he's one of them who knows to get the bass massively rolling!

guyus is introduced by a set of particularly reggae-influenced dubstep-tunes, mixed by **new.com** (p45/cmfrt_ns_prdctns)
