detroit is the word

his name is **peak** and he has clear ideas of the sound he's playing & supporting: soulful deepness that is always in close contact with its roots, topographically located around detroit. he is strictly against compromises and plagiarism & as a vinyl-addict, he's looking after a nice collection that represents a broad range of original & style-forming records. peak drops his most loved pearls for p45 radio & comments them - to give us higher education in electronic music. peak is introduced by new.com.
