house 2 house

in the beginning of the 1990's **aramis** (colmar, france) get interested in house and ambient. in the late 1990's he had already been interested in the fusion of different electronic music styles, i.e. uk garage in its several forms (4x4 and 2-step), then brokenbeat, breaks and finally dubstep. at the turn of the 2000's he joined the association "desertik" in strasbourg which organized open styled parties (with guests such as i-cube, troublemakers, michael rütten etc.), and "sunshine prod." in colmar that did house events (with guests like dj deep). aramis is introduced by **new.com** (p45/ cmfrt_ns_prdctns/dub_ex_machina).
