deep house & even deeper

right, it's been quite some time that **new.com** (p45/cmfrt_ns_prdctns) has been supplying one entire radio-show on p45 radio. against the malicious tongues, who say that he's completely lost in dubstep, new.com proves that he's still familiar with straight 4/4-patterns... btw, check the two-piece mix-set "basso continuo" / "basso profundo" on comfortnoise.com and see what it's all about: deepness rules!
