sick electronic mu

michi keller is one of those connoisseurs of electronic music who generally prefer to stay in the background. this of course doesn't prevent him from having a large vinyl-collection and networking with several national and international music scenes, djs and producers. one very remarkable outcome of his activities are regular and exclusive parties in a relaxed atmosphere - driven by the strong will of achieving outstanding quality. not necessary to accent that he uses to attain his goals bravely! having him in p45 radio's september-08-show is another opportunity to get to know something new & special: carefully selected sounds by an extraordinary advanced taste. michi keller is introduced by **new.com** (p45/cmfrt_ns_prdctns/dub_ex_machina).
